

To,

**Mr. Devesh Rajadhyax,
Chief Solution Architect & Director
21st Century Health Management Solution (P) Ltd
INDIA**

Dear Devesh,

Please accept my heartiest congratulation to 21st Century Health Management for adding one more jewel to its crown by joining hands with EMITAC, major Technology and Service Provider Company of Dubai. It was good initiative to partner with EMITAC for sales, implementation & after sales-services for your entire client & product range. I will specially compliment 21st Century & EMITAC for starting local helpdesk as a first step which will boost confidence of existing customer and new prospect in the your company and its vision. My special compliments to Mr. Murtaza for unique blend of understanding both medical & technical domain and providing exemplary helpdesk support. I remember you asking me to share my experience about 21st Century and will like to take this opportunity to share my opinion for your company and its services

As a Head of IT services of this dynamic organization, I had heaps of challenges in front of me and could not have surmounted it without receiving exceptional support from 21st Century Health Management Solution. My initial experience with 21st Century Health was quite interesting as we had energizing session to understand their novel concept of enterprise solution to address problems of networked hospitals & clinics.

My entire journey with 21st Century Health had been thoroughly enriching experience with their impeccable understand of the Healthcare domain, immaculate documentation and estimable implementation methodology. I am highly impressed by their strong technology command when we had to integrate HIS & LIS under HL7 framework and their innovative power to develop user friend HL7 engine which would help us in identifying root cause of any HL7 integration problem.

I would like to compliment the entire 21st Century team about their passion and commitment to transform healthcare. Their seamless effort and dedication have made us pioneer in ME region to adopt, implement and successfully use a true enterprise solution. I would sincerely recommend 21st Century solution as comprehensive suite of enterprise solution specifically designed for the ever changing needs of organization with network hospitals or labs.

Yours faithfully,

Mr. Cules Schoeman

Group IT-Manager
